

The future of the NET

Secret Working Group report

AfNOG 2011, Dar El Salaam

June 2011

African Secret Working Group

Introduction

2011 is very rich in Events

**SWG has been watching as
assigned by these people**

This is the report

African Secret Working Group

Internet future summit 2011

Which Addressing ?

How secure is the core?

Who said these people never thought of Internet's future ?

Next IANA functions operators?

What's about Names and the .africa

Internet and democracy?

African Secret Working Group

Which Addressing ?

**Yes, They ran out of v4
on 3rd february 2011**

**it:is:IPv6:time
are:you:ready**

IANA v4 Registry
Closed

**Rod and Adiel traded the 102/8 for
Africa**

African Secret Working Group

NTIA selling IANA functions this year

Bid for what you want:

IETF registries ?

IPs and ASN registries ?

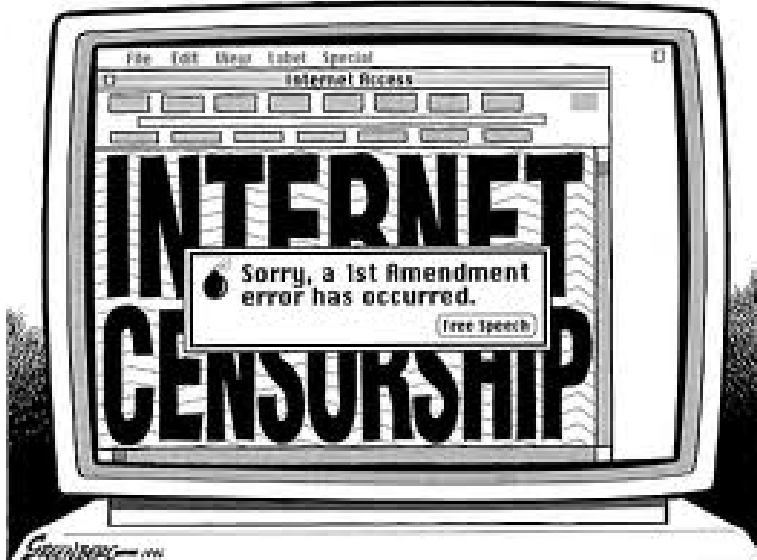

Root zone management ?

John Had said how you do this

Internet and democracy

This this what we got

Since some people started using the Net to spread the new virus

G8 is concerned and now E compatible

e-G8 FORUM
24-25 MAI 2011, PARIS

What's about your debate on NET NEUTRALITY ?

African Secret Working Group

...and what's about “.africa” !

Talking about it is risky :-)

It may be worse than for the numbers registry.

Don't kill your people before it got delegated:
.africa will need policies, operational and users

Hope the AUC will make the right decision

Securing the core

Some good things are happening here

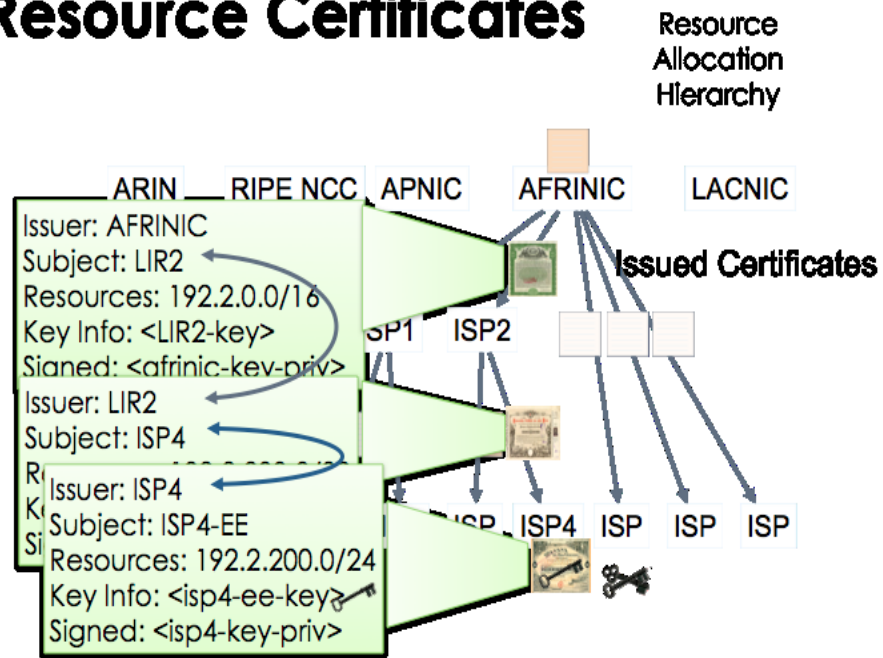

NVI

ROOT ZONE

Resource Certificates

Make sure they break Nothing while securing the core.
